

We are targeting **zero** manufacturing landfill **waste** (sending no manufacturing or packaging waste to any landfill) **by 2022**

Whirlpool® HybridCare™ clothes dryer with Hybrid Heat Pump technology is **ventless** giving the freedom to place dryers **virtually anywhere** in the home while also **reducing energy consumption** by approximately **40%**

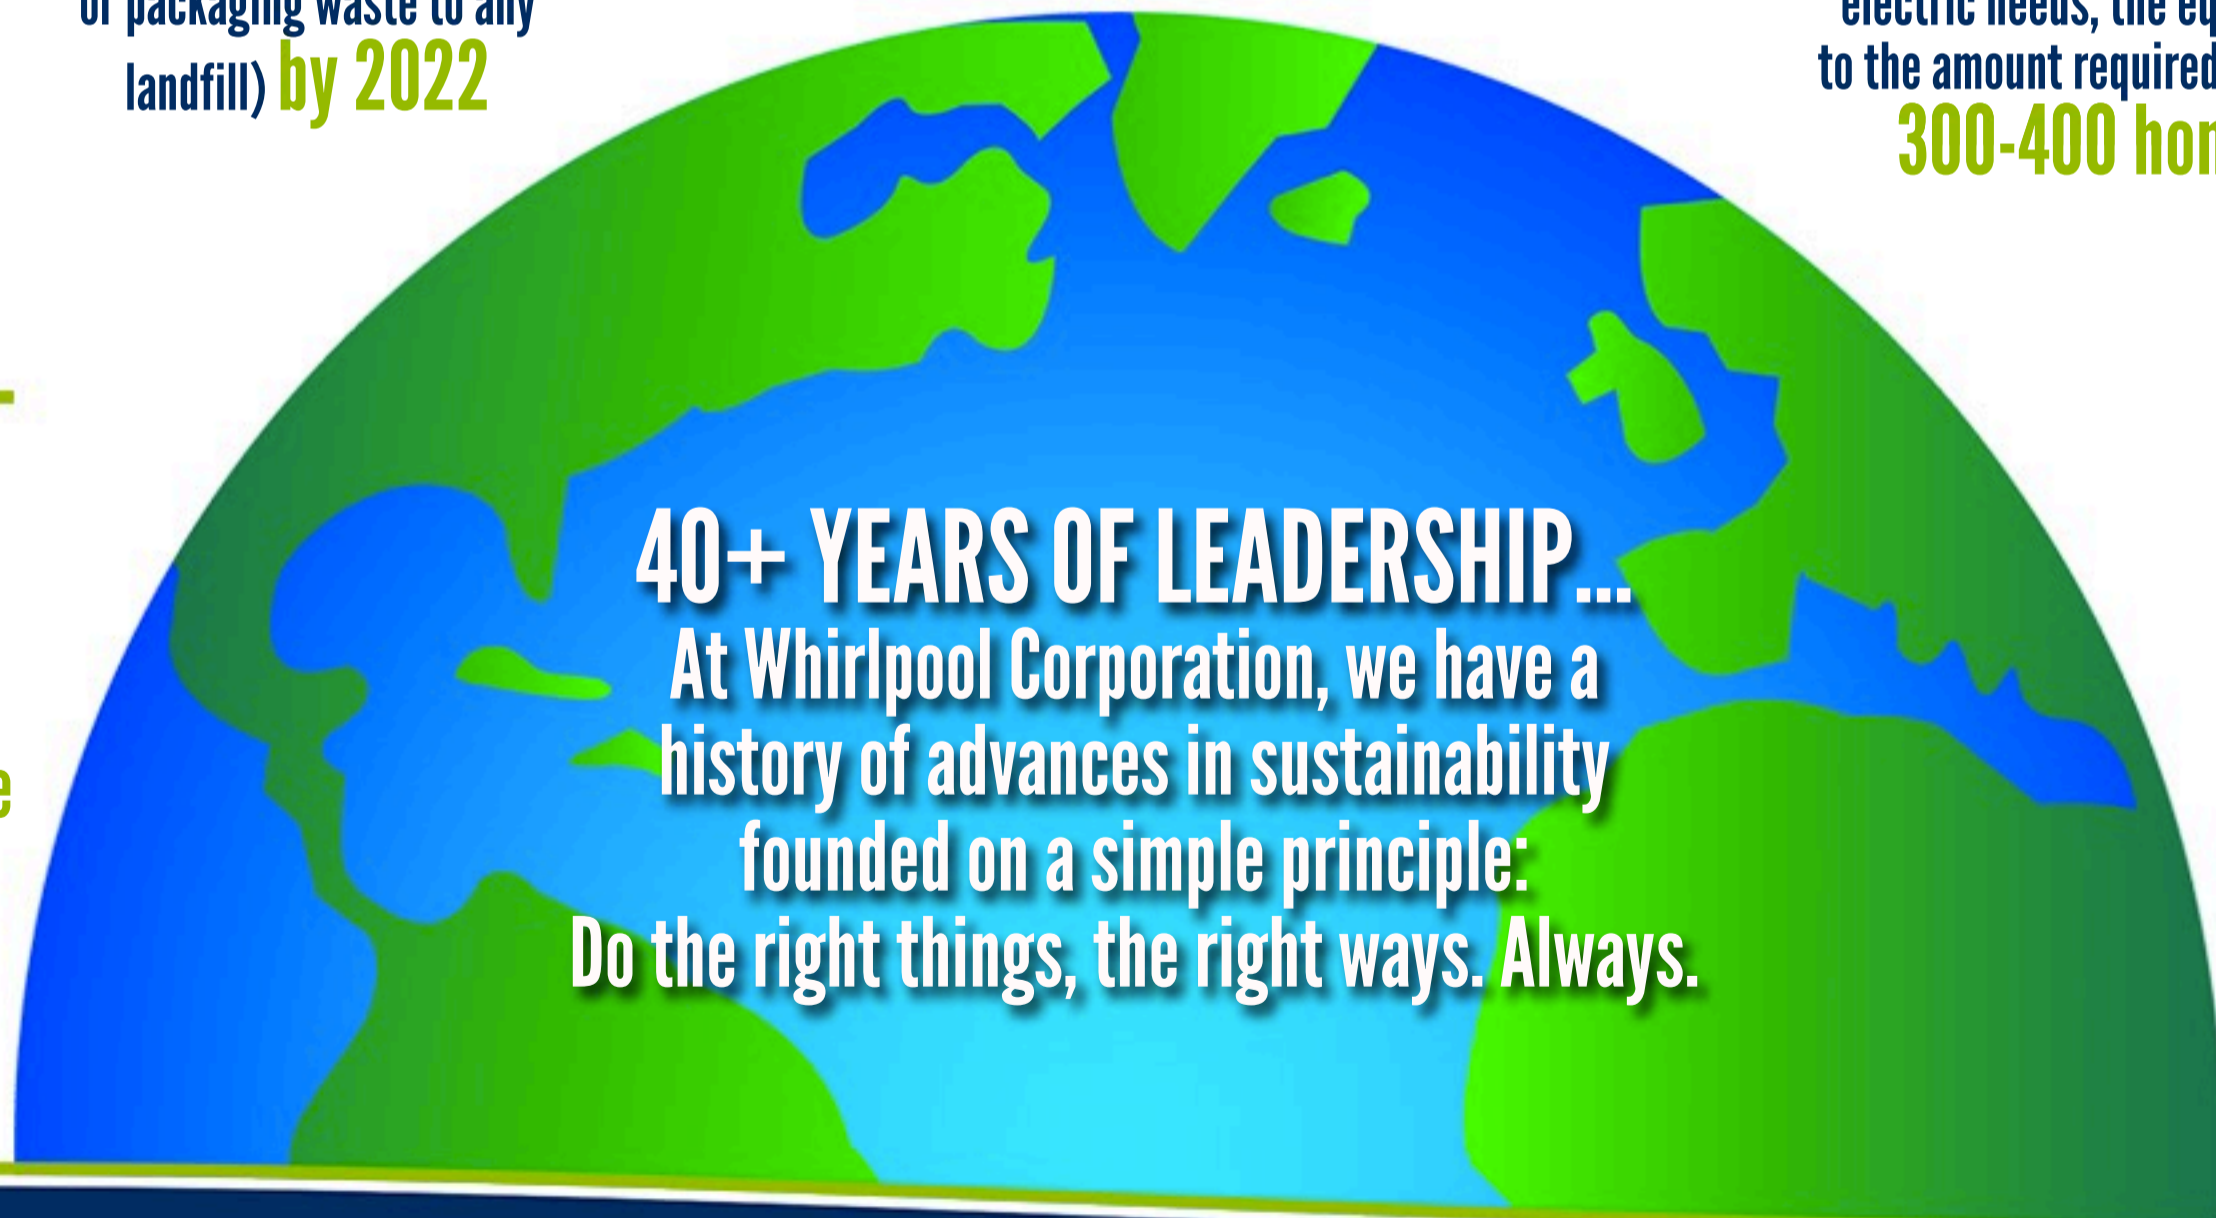

In 2012, we not only reached, but significantly exceeded our commitment to **reduce** our **greenhouse gas** emissions by **6.6%** during 2003 - 2012  
 First appliance manufacturer to announce such a greenhouse gas reduction target and the first to reach our goals

We are building a wind farm at our Findlay, OH plant which is estimated to provide **22%** of the plant's electric needs, the equivalent to the amount required to power **300-400 homes**

**99.9%** Decrease in Global Warming Potential  
 • In 2014, we became the first appliance manufacturer in the world to use Solstice® Liquid Blowing Agent (LBA)  
 • Incorporating Solstice® LBA will dramatically improve air quality, equivalent to removing more than **400,000 cars** from the road

**40+ YEARS OF LEADERSHIP...**  
 At Whirlpool Corporation, we have a history of advances in sustainability founded on a simple principle:  
**Do the right things, the right ways. Always.**
